

## Skateboard Deck Design

**Name:** James Doak

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	0 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	3 / 4 1 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 3 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	2 / 3
<b>Total:</b>	<b>11 / 20</b>

### **Notes:**

Good work James.

Your concept work is good and you have developed one idea really well. It would be great to see a wider range of ideas before you settle on the final. Experiment a little more.

Remember to do some research. This is a chance to see what has already been done so you don't have to think of everything yourself.

The final deck design is good. It is close to the final concept but is missing some details (ie. the geometric shapes).

## Skateboard Deck Design

**Name:**        **Mikael Christensen**

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	1 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	2 / 4 1 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	1 / 2 3 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	2 / 3
<b>Total:</b>	<b>10 / 20</b>

### **Notes:**

Good work Mikael.

You have a pretty good final skateboard deck and have used a couple of different media to construct it. You have missed out the 2 geometric shapes required.

Remember to do some research. This is a chance to see what has already been done so you don't have to think of everything yourself.

Your concept work on this project does not seem to tie in with the design of a skateboard deck. Remember to write comments on your concepts so we can see what you are thinking.

Good evaluation. On the next project work on being more descriptive. This is a chance to see what you are doing well and what you can improve on.

## Skateboard Deck Design

**Name:** Michael Early

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	2 / 3 2 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	4 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 4 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	2 / 3
<b>Total:</b>	<b>18 / 20</b>

### Notes:

Excellent work Michael. You have really done well on this project.

You had some research and comments, good concept work, a final solution and you met the requirements of the brief. That's design.

For the next project try to be more descriptive during your evaluation and research. Be specific about what you would do differently next time, which specific parts did you like etc. With research try to identify the things you like and don't like – it's sort of like the evaluation but you are looking at other people's work instead of your own.

Keep this up.

# Skateboard Deck Design

**Name:**        **Lauren Hendry**

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	3 / 3 2 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	4 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 4 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	3 / 3
<b>Total:</b>	<b>20 / 20</b>

**Notes:**

Excellent work Lauren. I think we have a designer in the making here.

You had some research and comments, good concept work, a final solution and you met the requirements of the brief. Can't ask for more than that.

For the next project try to be more descriptive of your concept work. Makes notes about what you like and don't like, just as you did in your research. It all helps your final design be the best it can be.

You can be proud of this work. Keep this up.

## Skateboard Deck Design

**Name:**        **Zuri George**

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	1 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	3 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 3 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	3 / 3
<b>Total:</b>	<b>14 / 20</b>

### **Notes:**

Good work Zuri. This is a good solid effort.

Looking at the projects you have a strong style that should develop well over time. On the next project try to do something a little different and experiment a little more during concept design.

Remember your comments on the concepts and research so we can see what you are thinking. They can be short notes about what you like and don't like (and why).

## Skateboard Deck Design

**Name:** Philip Early

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	0 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	3 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 4 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	2 / 3
<b>Total:</b>	<b>13 / 20</b>

### **Notes:**

Good effort Philip.

Your final deck design is good and well presented.

Remember to complete some research at the start of the project to get ideas. Make notes about what you like and don't like. Keep it simple but doing it will really help.

Remember your comments on the concepts so we can see what you are thinking. They can be short notes about what you like and don't like (and why). I should be able to see a final idea appear and get developed.

On the next project I'd like to see you take some more time on the concept design and try to come up with your ideas that are all your own.

Work hard.

## Skateboard Deck Design

**Name:** Philip Early

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	0 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	3 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 4 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	2 / 3
<b>Total:</b>	<b>13 / 20</b>

Remember to complete some research at the start of the project to get ideas. Make notes about what you like and don't like. Keep it simple but doing it will really help.

Remember your comments on the concepts so we can see what you are thinking. They can be short notes about what you like and don't like (and why). I should be able to see a final idea appear and get developed.

On the next project I'd like to see you take some more time on the concept design and try to come up with your ideas that are all your own.

Work hard.

## Skateboard Deck Design

**Name:** Ben Hughes

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	0 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	3 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 4 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	0 / 3
<b>Total:</b>	<b>11 / 20</b>

### **Notes:**

Good effort Ben.

Your final deck design is good and well presented.

Remember to complete some research at the start of the project to get ideas. Make notes about what you like and don't like. Keep it simple but doing it will really help.

Remember your comments on the concepts so we can see what you are thinking. They can be short notes about what you like and don't like (and why).

On the next project I'd like to see you take some more time on the concept design and experiment more with different ideas.

## Skateboard Deck Design

**Name:**        **Lewis Cochrane-Cree**

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	2 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	4 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 3 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	0 / 3
<b>Total:</b>	<b>13 / 20</b>

### **Notes:**

Great effort Lewi.

Your concept work is excellent and you have clearly developed an idea. Keep this up.

For the next project add some comments to your research (what you like and don't like). Also make sure you do your own research. This looks similar to another student's work.

Your focus on the next project should be meeting the deadline and delivering everything on time.

## Skateboard Deck Design

**Name:**        **Bonnie Smid**

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	0 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	4 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 3 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	2 / 3
<b>Total:</b>	<b>13 / 20</b>

### **Notes:**

Good effort Bonnie.

You have a nice drawing style which is obvious in your final work.

You have come up with a range of concepts and developed one final idea. The final work is excellent.

Research is still an issue for you. Make it a focus of the next project and find existing solutions that you like and don't like.

Make sure you write some short comments about your concepts. It helps decide what is working and what isn't.

## Skateboard Deck Design

**Name:**        **Shaun Cain**

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	0 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	2 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 3 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	0 / 3
<b>Total:</b>	<b>9 / 20</b>

### **Notes:**

The final solution is good Shaun and with a bit of development would have been a really good solution.

You have some great ideas so I'd like you to focus on giving the design process a really good go on the next project. Get the research done (find examples of existing work and briefly comment on it), draw a good range of ideas (don't stop at 5 if you can draw more) and present one final idea neatly.

The evaluation is a chance for you to reflect on your design and look at what worked and what didn't so you can use that on the next project. The process is the same for each project so you should be able to get really good results.

Complete an evaluation for this design and get it to me for further credit.

## Skateboard Deck Design

**Name:**        **Jade Culpan**

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	0 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	1 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 3 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	2 / 3
<b>Total:</b>	<b>10 / 20</b>

### **Notes:**

The final solution is a good one Jade.

Research and concept work should be a focus of the next project. Developing your ideas further early on in the process will make your final solutions more interesting.

Your evaluation is very basic and I'd like you to work on this. The evaluation is a chance for you to look at your final solution and comment on what worked and what didn't work. You can then use this to improve on your next project. Designers usually go through this process on every project they do.

Keep working on these skills.

## Skateboard Deck Design

**Name:** Najiba Rezaie

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	0 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	4 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 3 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	3 / 3
<b>Total:</b>	<b>14 / 20</b>

### **Notes:**

Good work Najiba

Research and concept work should be a focus of the next project. Developing your ideas further early on in the process will make your final solutions more interesting.

You missed one geometric shape (the cube) from your final design.

Your evaluation is very basic and I'd like you to work on this. The evaluation is a chance for you to look at your final solution and comment on what worked and what didn't work. You can then use this to improve on your next project. Designers usually go through this process on every project they do.

Keep working on these skills.

# Skateboard Deck Design

**Name:**      **Tejey Gebremedihin**

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different skateboard decks</li><li>• written notes about each skateboard deck</li></ul>	0 / 3 0 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	4 / 4 2 / 2
Final deck: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final skateboard deck includes the geometric solids and uses a range of media</li></ul>	2 / 2 4 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	3 / 3
<b>Total:</b>	<b>15 / 20</b>

**Notes:**

Good work Tejey

Research and concept work should be a focus of the next project. You have some great concept ideas which would have been excellent with some research behind them.

Your evaluation is good and makes some general comments about what you would do differently next time. The evaluation is a chance for you to look at your final solution and comment on what worked and what didn't work. You can then use this to improve on your next project. Designers usually go through this process on every project they do.

## Band Poster Design

**Name:**        **Rosemary Meikle**

<b>Task</b>	<b>Mark</b>
Research: <ul style="list-style-type: none"><li>• at least 5 different posters and/or CD covers</li><li>• written notes about each poster/CD cover</li></ul>	2 / 3 1 / 2
Sketches: <ul style="list-style-type: none"><li>• at least 5 different ideas</li><li>• one final idea</li></ul>	3 / 4 1 / 2
Final poster: <ul style="list-style-type: none"><li>• based on concept sketches</li><li>• the final poster includes the geometric solids and uses a range of media</li></ul>	1 / 2 3 / 4
Evaluation: <ul style="list-style-type: none"><li>• the sheet has been completed</li></ul>	2 / 3
<b>Total:</b>	<b>13 / 20</b>

### **Notes:**

Good work Rosemary.

Great to see some research. On the next project try to get more examples and make more comments. It'll help you get ideas for your final design.

It was a little unclear how you got to your final poster. I should be able to see it in the concepts and then some sketches of it by itself. Let me know if you need some help with this process.

Good evaluation.
